来自皇家茶园的安化黑茶

黑茶主要功效：降三高，降血压，降血糖，降脂减肥

黑茶养生；膳食营养，助消化解油，抗氧化

纯料百两茶，高马二溪黑毛茶，

建议 5-6 个人 8克一泡

RM 35 一 壶

Enjoying Hunan tea, while savouring Hunan cuisine

Anhua Black Tea from the Royal Tea Garden in Hunan

The main benefits of black tea:

Helps to lower the 3 most harmful digits in our health report, lowers blood pressure, lowers blood sugar, aids weight loss

Health benefits of long term consumption of black tea;

black tea is high in nutrients, aids digestion and expels excess oil from our digestive system, high in antioxidants

Gao Ma Er Xi 100 Tael Black Tea

Serving suggestion 5-6 people 8 grams per pot

RM35/pot

精品茶 Specialty Tea

金花，是“冠突散囊菌”，是对人有益的酵素类菌。
“金花”能分泌淀粉酶和氧化酶，可催化茶叶中的蛋白质、
淀粉转化为单糖，催化多酚类化合物氧化，
转化成对人体有益的物质，使茶叶的口感等特性提高和优化。
只有黑茶类茯茶，才会在制作过程中
刻意培植“冠突散囊菌”群落，
这需要极独特的加工工艺才能制成。

妙境云上 金华茂盛纯种大叶 方砖茯茶
建议 5-6 个人 7克一泡
RM 32 一 壶

Golden flower, also known as "coronal bacterium", is an enzyme-like fungus that is beneficial to the human body.

Golden Flower can secrete amylase and oxidase, which can catalyze the conversion of protein and starch in tea into monosaccharide, catalyze the oxidation of polyphenolic compounds, convert them into beneficial substances for human body, improve and optimize the taste of black tea.
Only black tea in the brick style fermentation will deliberately cultivate the "C. sphaeroides" community during the production process, which requires a very unique processing technology.
